

BIBLE STUDY & JOURNALING

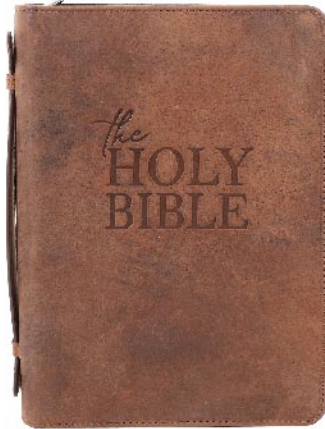

Choosing the Correct Size

1. Carefully measure your Bible and compare with the listed measurements. (It is recommended that you allow at least 1" of extra room for bible covers with tightly rounded corners.)
2. If you plan to carry extras, like a journal, or study guide, then please consider the next size up.
3. Please remember the measurements given cannot account for your unique Bible and its accessories. If your bible will fit some of the listed measurements, but not all, then please consider the next size up.
